DISCLAIMER

Though all the efforts have been made to ensure the accuracy and currency of the content on this report, the same should not be construed as a statement of law or used for any legal purposes. In case of any ambiguity or doubts, users are advised to verify/check with the appropriate Government Functionary/Authority and/or other source(s) and to obtain appropriate professional advice. This Report is based on voluntary uploading of data by the schools having active UDISE+ codes in a reference year, with 30th September as the reference date, using specially designed data collection formats (DCF).The UDISE+ code of a school is allotted by the State/UT Government where the school is located. The responsibility for the accuracy of the data filled in the DCFs rests with the concerned Nodal Officers, namely Principal/ Vice-Principal/ Head Master/ Head Teacher/ Senior most teacher at the school level, Cluster Resource Officer at the cluster level, Block Education Officer for the block level, District Education Officer at the district level and the SPD of Samagra Shiksha at the State level. The Ministry of Education, therefore, assumes no responsibility or liability for any errors or omissions in the data and indicators reported in the document. Inclusion of name of a school in any of the lists in the portal http://udiseplus.gov.in or any of the reports generated in the portal does not confer the status of recognition to the school by the Ministry of Education, Government of India.

Key Results all-India

UNIFIED DISTRICT INFORMATION SYSTEM FOR EDUCATION PLUS (UDISE+) 2019-20

KEY RESULTS – ALL INDIA

1. INTRODUCTION

1.1. The Indian school Education System is one of the largest in the world with more than **15 lakh** schools, nearly **97 lakh** teachers and nearly **26.5 Crore** students[1] of pre-primary to higher secondary level from varied socio-economic backgrounds. The system strives to maintain standards and uniformity across the country while giving ample scope for the country's diverse culture and heritage to grow and flourish.

1.2. A robust, real time and credible information collection mechanism is an essential prerequisite for an objective evaluation of the system, based on which specific interventions for improvement can be designed. In early 1990s, as part of the District Primary Education Programme (DPEP) national endeavour, a school based computerised information system was designed and developed. Education Management Information System (EMIS), called the District Information System for Education (DISE) was created for classes 1 to 5 for planning and monitoring the DPEP over 42 districts in 7 selected States. Over the years, this was expanded to cover the entire elementary education system in India. In 2008-09, with the introduction of the Rashtriya Madhyamik Shiksha Abhiyan (RMSA), a separate and dedicated Secondary Education Management Information System (SEMIS) was started for classes 9 to 12. Subsequently, in 2012-13, the Unified District Information System for Education (UDISE) was launched by integrating the DISE and SEMIS. The UDISE system thereafter became the only source of data for the school education system with respect to schools, teachers and student enrolment. Under the UDISE system, the schools fed the data manually at the school level in paper version of the Data Capture Format (DCF) with reference date of 30th September of each year. Thus, UDISE used to provide school-wise data on enrolment, physical infrastructure, teacher, etc. These paper DCFs were computerised at block level or at district level, collated at State/UT level and thereafter shared with the Central Government to build a national database.

1.3. With an aim to overcome the limitations of the UDISE system, the Department of School Education and Literacy (DoSEL) has developed the UDISE+ system with many unique features and introduced it from the reference year 2018-19. Improvements have been made particularly in the areas related to data capture, data mapping and data

[1] Number of schools, teachers and students are from UDISE+ 2019-20. Pre-primary enrolment mentioned in this report excludes pre-primary enrolment in ECCE centres of Anganwadi and private kindergartens, as these are not a part of UDISE+. The school enrolment mentioned in this report also excludes enrolment in open schools, enrolment in vocational courses run by the Ministry of Skill Development and Entrepreneurship and State Governments as those are also not a part of UDISE+.

verification. Following field trials conducted in the schools and on the basis of their inputs, the questions in the DCF have been redesigned so that they are simpler and easier to understand. New questions have been included like pre-primary education, sports equipments, library books, ICT, school safety, etc. Different types of DCFs have been prepared for different categories of schools, namely, primary, upper-primary, secondary and higher secondary. The schools need to respond only to that part of DCF which is relevant for them. To enable real time exchange of information, online uploading of UDISE+ data has been made mandatory from 2018-19. The uploading is done either at school level or at the block level. Inbuilt validation checks are part of the software. A certificate on correctness of data from the head of school and the Cluster Resource Coordinator has been made a part of the DCF. To eliminate the problems related to coordination, supervision, monitoring and security of the UDISE+ data, it is hosted in the server of the National Informatics Centre (NIC) and has been brought under the overall supervision of the DoSEL. The NIC, which has vast experience in handling large databases in secured servers of several Government Departments at the Centre and the States are now in charge of the UDISE+. The security of the data has been ensured through this step. Further, a dedicated group of personnel look into all technical aspects of the software and handle the queries from States and UTs. NIC also provides web services to those States/ UTs which have their own MIS, so that they can upload their data on the UDISE+ portal seamlessly. Regular liaison with the concerned departments in the States/ UTs is also done by the DoSEL to resolve any outstanding issues in this regard.

1.4. The present publication relates to UDISE+ data for the reference year 2019-20. Some of the salient results at all-India level are given in the following paragraphs. This is followed by detailed tables at the all-India and State/UT level for the most used indicators based on the UDISE+ data. More than 100 such detailed tables, called UDISE+ reports for the years 2012-13 to 2019-20 have also been made available in the website of UDISE+ developed for disseminating this data in the link **http://www.education.gov. in/hi/statistics-new?shs term node tid depth =394&Apply=Apply** and **https://udiseplus. gov.in/#/Publication** UDISE+ detailed tables.

2.   Salient results from UDISE+ 2019-20 – all India

2.1.   Enrolment of students

2.1.1. The total enrolments and enrolments of boys and girls for the years 2012-13, 2018-19 and 2019-20 for different levels of education namely, pre-primary, primary, upper primary, secondary and higher secondary are given in Charts 1 to 3 below. It may be noted that the pre-primary data in the UDISE+ system does not capture the pre primary enrolment of the Early Childhood Care and Education (ECCE) system run by the Ministry of Women and

Child Development through the Anganwadi centres or stand alone pre primary education centres run by different kindergartens. It covers only the enrolment in pre-primary classes of different categories of schools. Total enrolment in schools has increased in 2019-20 compared to 2018-19 by 1.6%.

Chart 1: School Enrolment (in crore), India 2012-13,2018-19 and 2019-20

Enrolment (in crore)

	2012–13	2018–19	2019–20
Higher Secondary (11-12)	2.0	2.6	2.6
Secondary (9-10)	3.5	3.8	3.8
Upper Primary (6-8)	6.5	6.4	6.5
Primary (1-5)	13.5	12.0	12.2
Pre–Primary	0.8	1.2	1.4

■ Higher Secondary (11-12)   ■ Secondary (9-10)   ■ Upper Primary (6-8)
■ Primary (1-5)   ■ Pre–Primary

2.1.2. The total enrolment in 2019-20 from primary to higher secondary levels of school education was a little over 25.09 Crore. Enrolment for boys was 13.01 Crore and that of the girls was 12.08 Crore. This was an increase by more than 26 lakh over the previous year 2018-19. Many of the schools under the UDISE+ system had pre-primary classes. Including that, total enrolment of all the schools in the UDISE+ system have crossed 26.45 Crore in 2019-20, which is an increase of more than 42 lakh over the previous year 2018-19. A comparison of enrolment at different levels of education shows that enrolment at primary level has reduced from 13.5 Crore in 2012-13 to 12.2 Crore in 2019-20[2]. At all the levels above primary, i.e., in upper primary, secondary and higher secondary, school enrolment has increased, showing an improvement in the ability of the system to retain more and more children in the system of school education over time. Charts 2 and 3 show that improvement in enrolment of both boys and girls was more pronounced at secondary and higher secondary levels of education.

Chart 2: Enrolment of boys (in crore), India 2012-13, 2018-19 and 2019-20

Chart 3: Enrolment of girls (in crore), India 2012-13, 2018-19 and 2019-20

² As per the latest population projection released by the Ministry of Health and Family Welfare in July 2020, at all-India level, number of children of age 6-10 years is projected to reduce by 0.85 Crore between the years 2011 and 2021. For age 6-10 years, this was 12.63 Crore in 2011, projected to reach 11.94 Crore in 2016 and 11.78 Crore in 2021.

2.2. Number of teachers

2.2.1. The total number of teachers has also shown a healthy increase in 2019-20 compared to 2018-19. Chart 4 shows the number of teachers by classes taught while Charts 5 and 6 show the share of different levels of education in total teachers in these two years. The total number of teachers in 2019-20 was 96.87 lakh, an increase of more than 2.5 lakh over total teachers in 2018-19 (94.3 lakh).

Chart 4: Number of teachers by classes taught, India 2018-19 and 2019-20
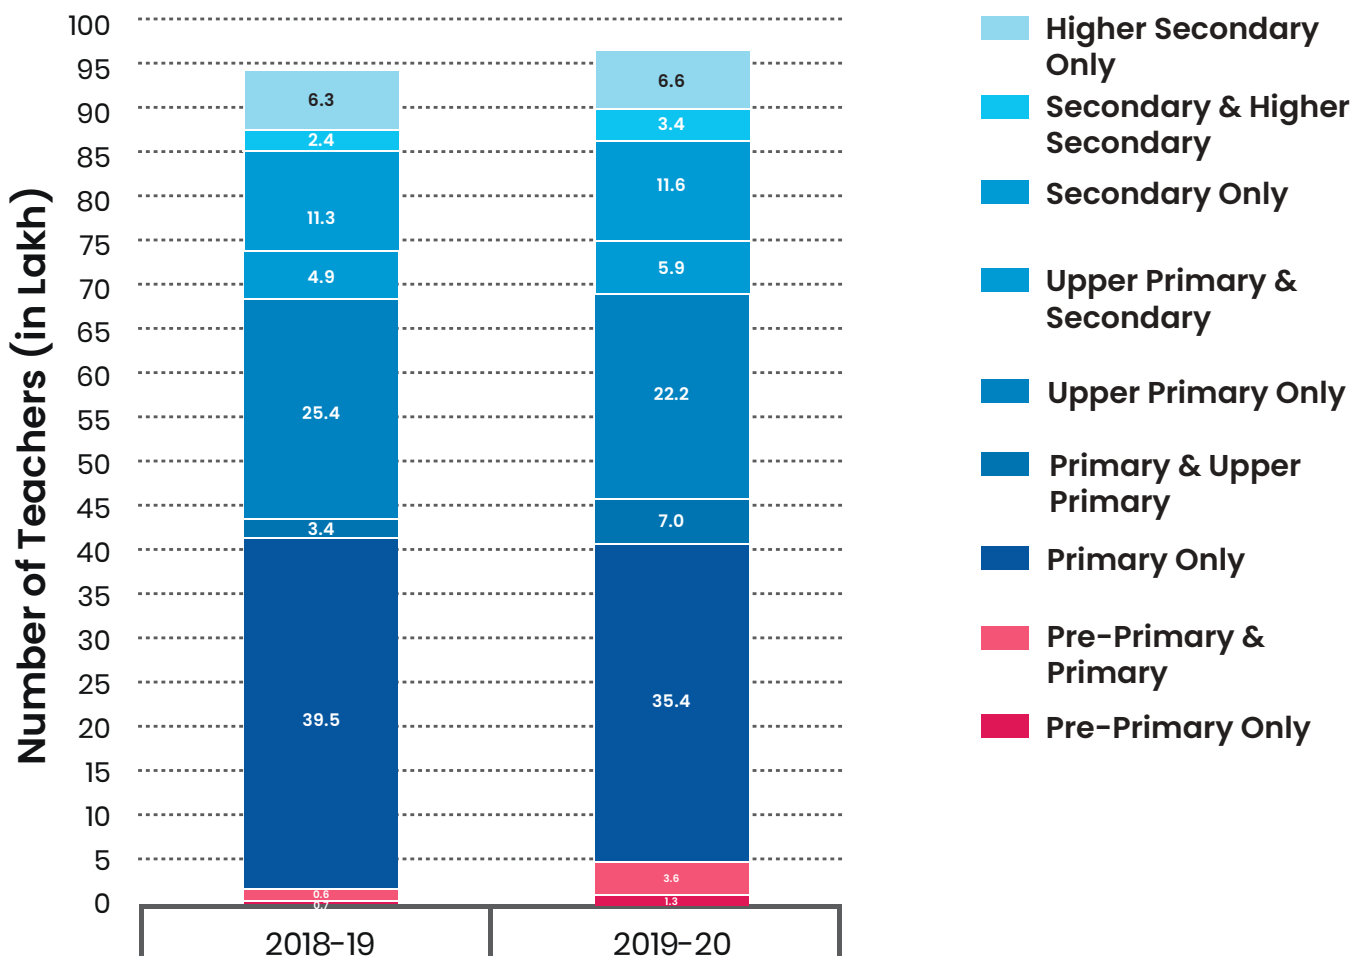

Chart 5: Percentage of Teachers by Classes Taught, 2018-19
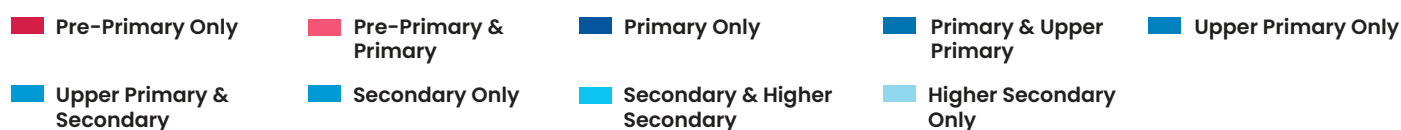

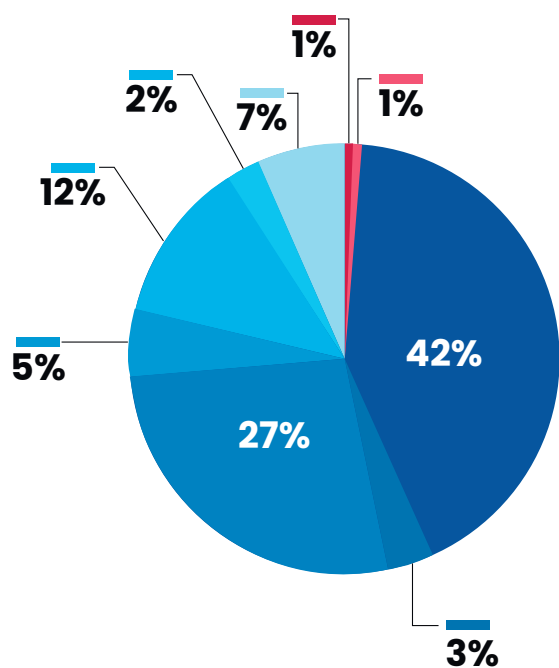

Chart 6: Percentage of Teachers by Classes Taught, 2019-20

Legend:
- Pre-Primary Only
- Pre-Primary & Primary
- Primary Only
- Primary & Upper Primary
- Upper Primary Only
- Upper Primary & Secondary
- Secondary Only
- Secondary & Higher Secondary
- Higher Secondary Only
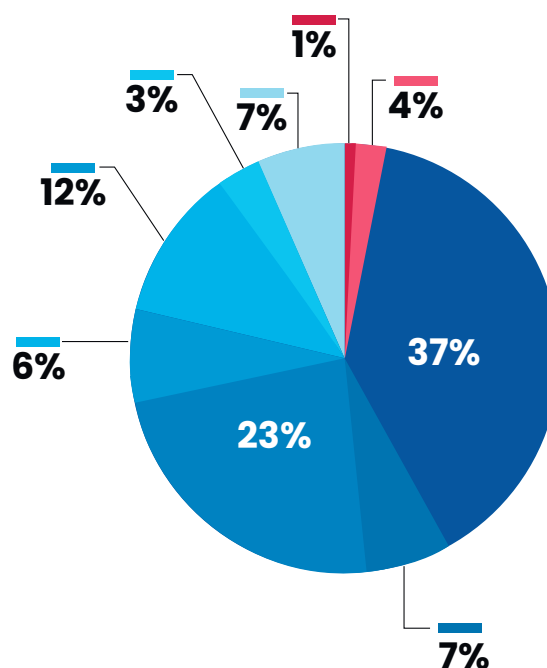

2.2.2. The percentage of teachers teaching only primary (37% in 2019-20 from 42% in 2018-19) and only upper primary (23% in 2019-20 from 27% in 2018-19) has reduced. This reduction in share has been compensated mainly through increase in percentage of teachers teaching pre primary and primary (4% in 2019-20, 1% in 2018-19), primary and upper primary (7% in 2019-20 from 3% in 2018-19). Smaller increase in share of teachers teaching both upper primary and secondary and secondary and higher secondary can also be found by comparing Charts 5 and 6.

2.2.3. Charts 7 and 8 depict the number and percentage of teachers by gender, combining all the classes taught, for the years 2012-13 to 2019-20. There were 35.8 lakh female teachers in 2012-13, which has gone up to 49.2 lakh in 2019-20. On the other, there were 42.4 lakh male teachers in 2012-13, which has gone up to 47.7 lakh in 2019-20. Thus, as can be seen from Chart 8, in 2019-20, for the first time, the participation of females in school teaching is more than that of males. However, from upper primary level onwards, number of male teachers is more than number of female teachers, as can be seen from Chart 9. At all levels of education, the number of teachers has increased over the period 2012-13 to 2019-20.

Chart 7: Number of teachers (in lakh) by gender,all India 2012-13 to 2019-20
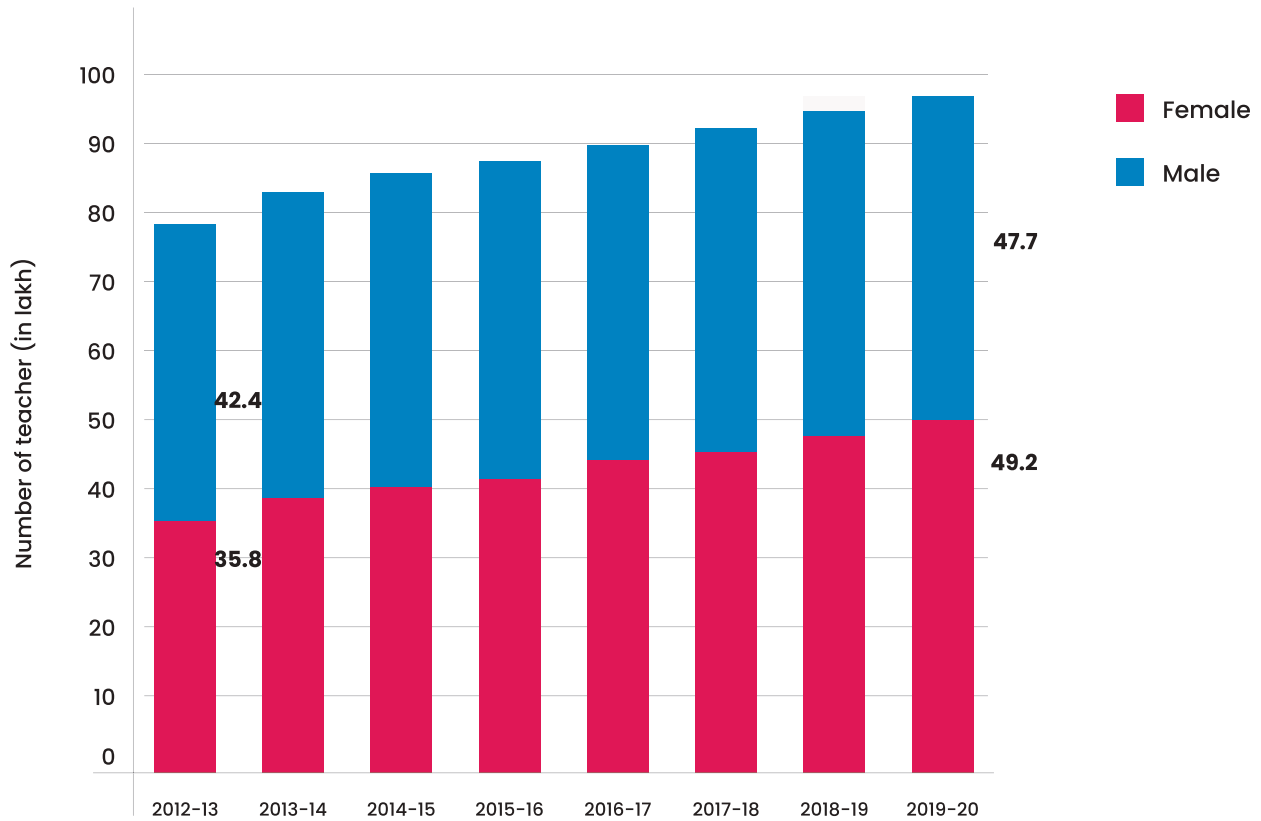

Chart 8: Percentage of teacher by gender, all India 2012-13 to 2019-20
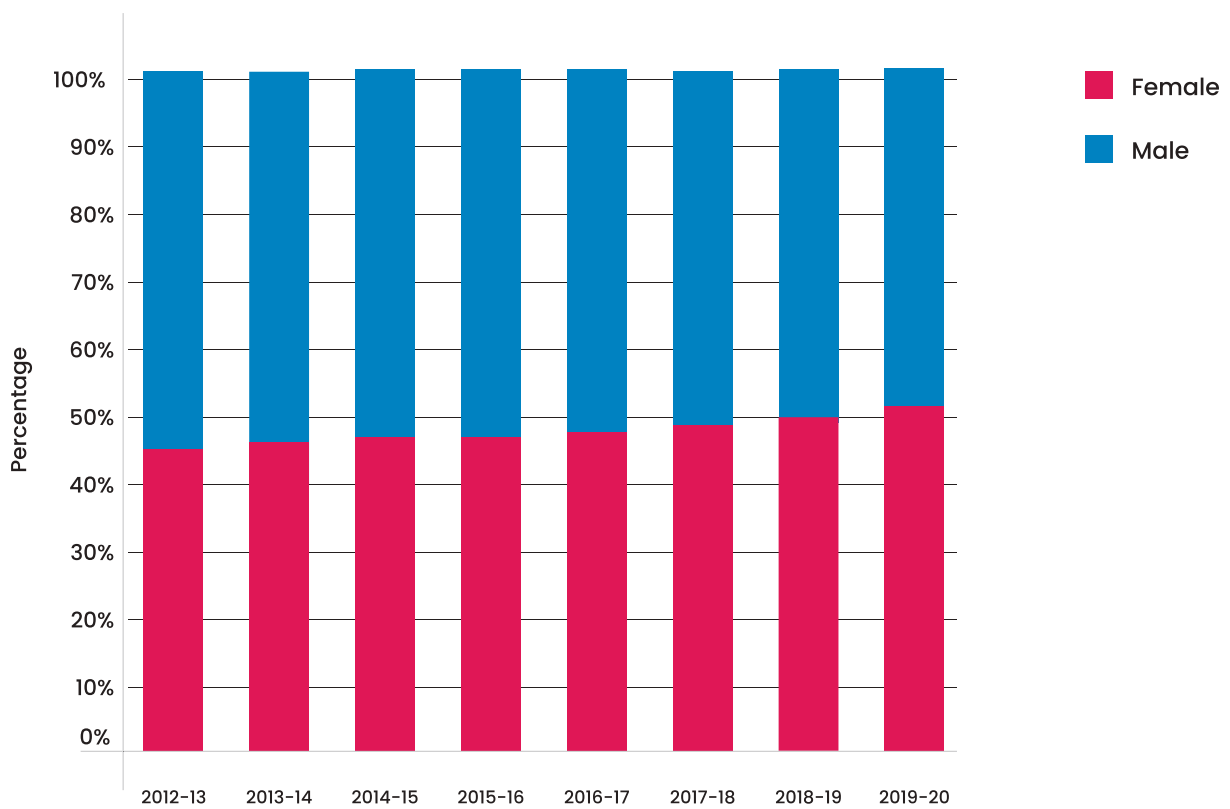

Chart 9: Number of teachers (in lakh) by classes taught and gender, all India 2012-13 to 2019-20
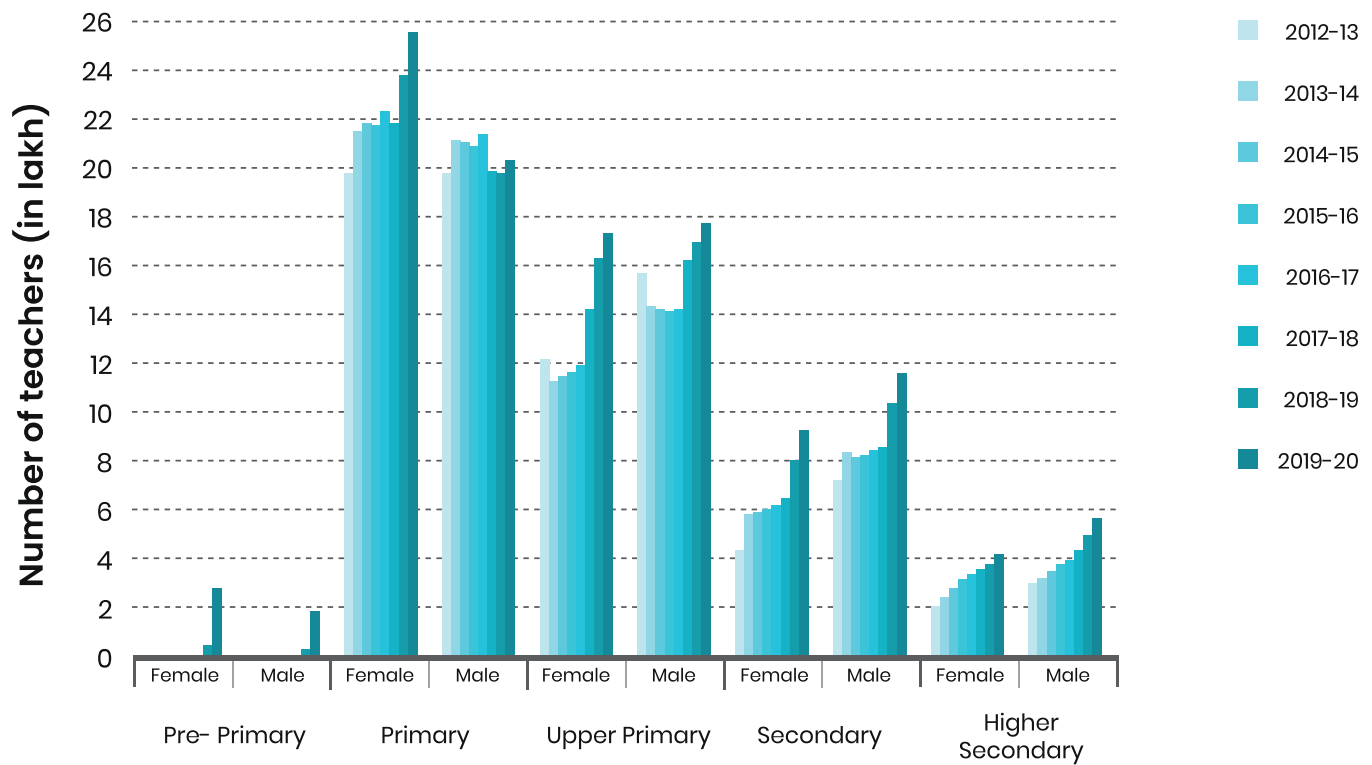

2.3.   School infrastructure

2.3.1. Chart 10 provides a comparison of a few major infrastructure facilities available in the schools in 2019-20 and 2018-19. It shows that all the major infrastructural facilities have improved in 2019-20 compared to the previous year.

Chart 10: Percentage of schools having specific infrastructure facility, India 2012-13, 2018-19 and 2019-20

Legend: 2019–20, 2018–19, 2012–13
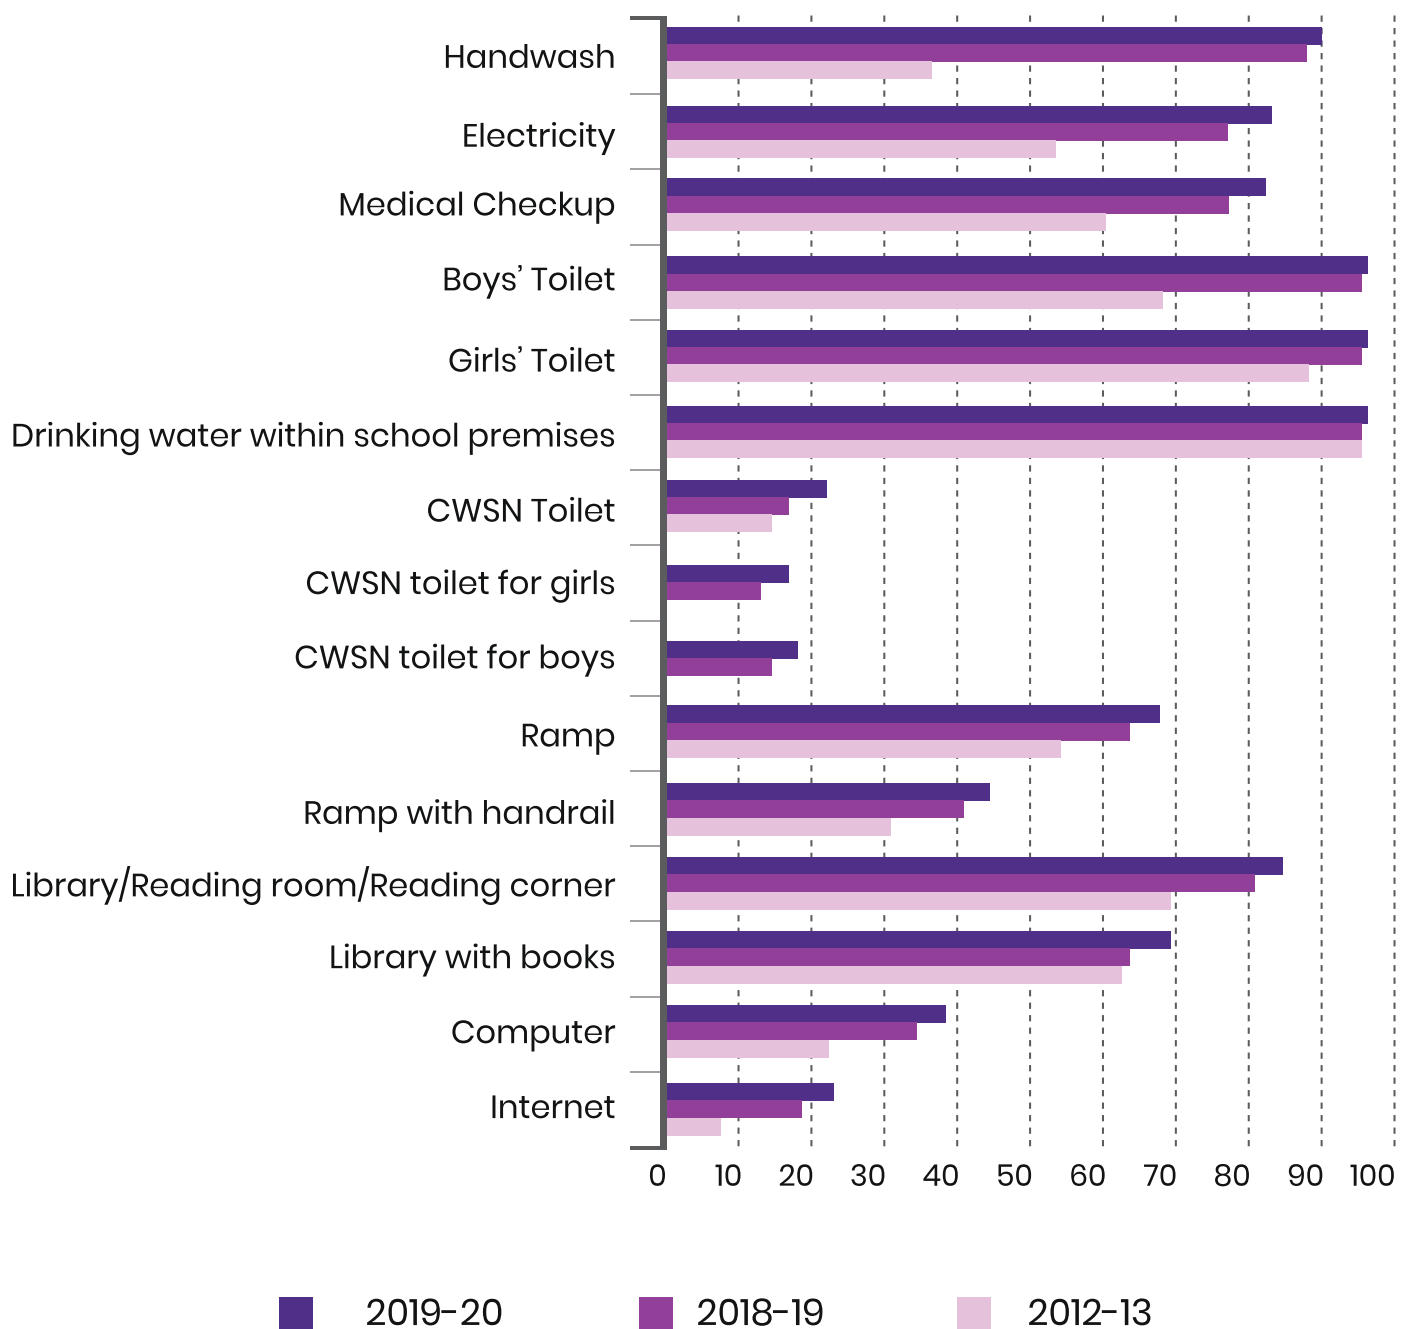

2.3.2. Chart 10 shows that in general, availability of infrastructure has improved in 2019-20 compared to the previous year. Some of these are: availability of electricity connection (available in 83.4% schools in 2019-20, which was 76.7% in 2018-19), library with books (available in 69.4% schools in 2019-20, it was 64.3% in 2018-19), computers (available in 38.5% schools in 2019-20, it was available in 34.5% schools in 2018-19), internet (available in 22.3% schools in 2019-20, it was available in 18.7% schools in 2018-19), ramp (available in 67.6% of schools in 2019-20, it was available in 63.7% schools in 2018-19) and CWSN friendly toilets for both girls' and boys'.

2.3.3. In UDISE/UDISE+, data collection on availability of different infrastructural facilities have been enhanced over time. Among the items for which data was collected in both 2012-13 (the first year for which the UDISE data is available) and 2019-20, substantial improvements have been observed with respect to availability of the following infrastructure facilities:

- **hand wash facility (2019-20: 90.2%, 2012-13: 36.3%),**

- **electricity (2019-20: 83.4%, 2012-13: 54.6%),**

- **medical checkup in schools in a year (2019-20: 82.3%, 2012-13: 61.1%),**

- **boys' toilet (2019-20: 95.9%, 2012-13: 67.8%),**

- **girls' toilet (2019-20: 96.9% , 2012-13: 88.7%),**

- **library/ reading room/ reading corner (2019-20: 84.1%, 2012-13: 69.2%),**

- **computer (2019-20: 38.5%, 2012-13: 22.2%),**

- **internet (2019-20: 22.3%, 2012-13: 6.2%)**

The data users can access the UDISE+ reports available in the web portal of the Ministry of Education to access year-wise detailed tables on each of these facilities and more.

2.4. Gross Enrolment Ratio (GER), Gender Parity Index (GPI) and Pupil Teacher Ratio (PTR)

2.4.1. The Gross Enrolment Ratio (GER) compares the enrolment in a specific level of education to the population of the age-group which is age-appropriate for that level of education. For example, the GER of primary is student enrolment in class 1 to 5 expressed as a percentage of population in age group 6-10 years. Similarly, GER of upper primary is enrolment in class 6-8 expressed as a percentage of population in age group 11-13 years, and so on. Since changes in GER are usually not much on a year-to-year basis, its movement in the long run is of interest. Chart 11 shows the progress of GER for different levels of education for boys and girls during 2012-13 to 2019-20. It may also be noted that GER greater than 100% might indicate presence of over or under age children in a particular level of education.

Chart 11: GER by Gender and level of education, India 2012-13 to 2019-20
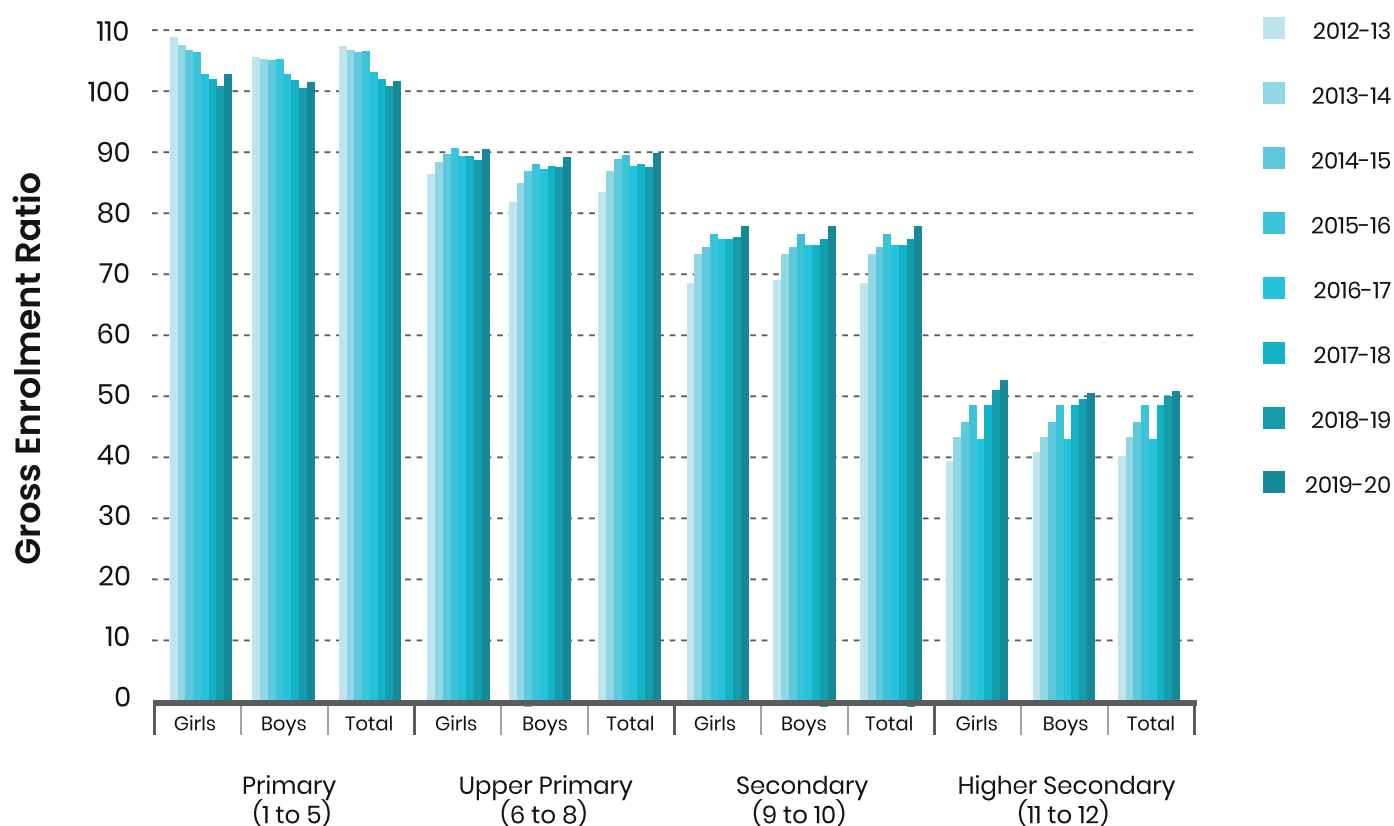

2.4.2. The GER of primary was more than 109% in 2012-13, which has come down to about 103.7% in 2019-20, indicating progress towards a more age-appropriate level of education at the primary level during this period. The GER for upper primary in 2019-20 was 89.7%. It was 84.1% in 2012-13. The GER for secondary has reached 78% in 2019-20, which is an improvement of nearly 10 percentage points from 2012-13 (GER secondary was 69.2% in 2012-13). Biggest improvement has been observed in GER at higher secondary level, which has reached 51.4% in 2019-20 from 40.1% in 2012-13.

2.4.3. The Gender Parity Index (GPI) of GER shows whether the representation of females in school education is in line with representation of girls in population of corresponding age group. GPI value 1 or more shows that the GPI is favorable to the girls, while GPI of less than 1 shows relative under representation of girls in that specific level of school education. Chart 12 shows the GPI of GER from 2012-13 to 2019-20 for the different levels of school education.

2.4.4. It is heartening to note that at present, the GPI is 1 or more at all levels of school education. While Chart 12 shows that the GPI at both primary and upper primary was more than 1 for all the years 2012-13 to 2019-20, the GPI at both secondary and higher secondary has improved during this period. Improvement of GPI has been most pronounced at the higher secondary level.

Chart 12: Gender Parity Index (GPI) of GER by level of education, India 2012-13 to 2019-20
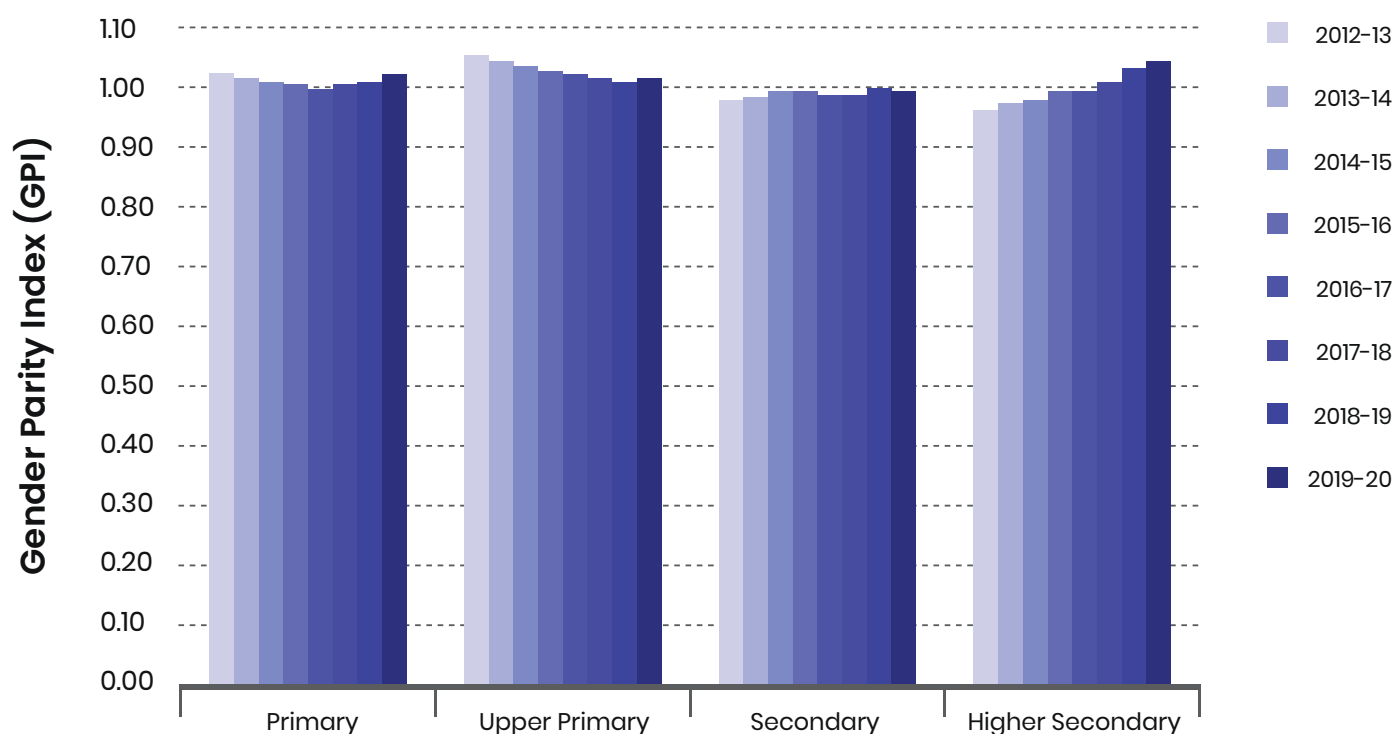

2.4.5. The Pupil Teacher Ratio (PTR) at different levels of education show availability of adequate number of teachers for teaching the children enrolled at different levels of education. Chart 13 below shows the PTR for different levels of education during 2012-13 to 2019-20. A reduction in the PTR indicates that one teacher has to teach less number of children, resulting in improvement in quality of teaching.

Chart 13: Pupil Teacher Ratio (PTR), India 2012-13 to 2019-20
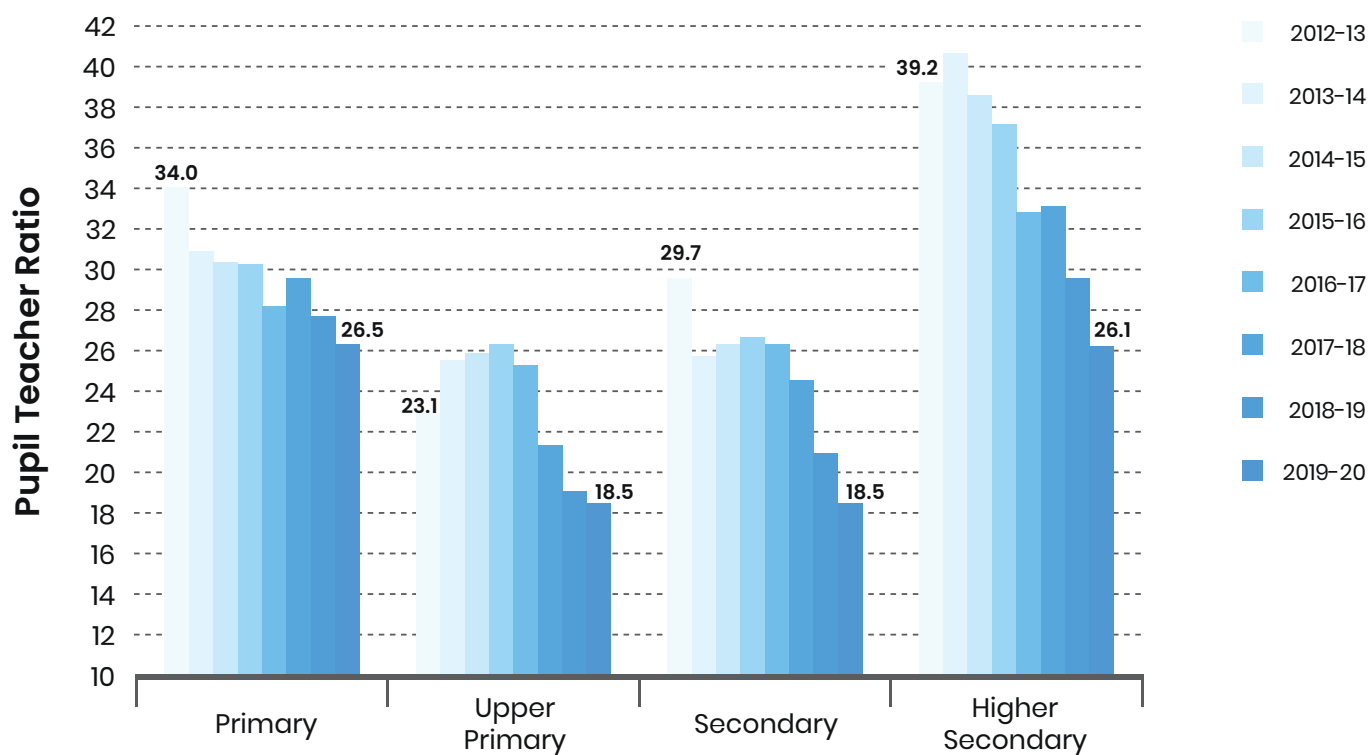

2.4.6. The PTR at all levels of education has improved substantially during 2012-13 to 2019-20. PTR for primary has reached 26.5 in 2019-20, which was 34.0 in 2012-13. Maximum improvement can be observed in PTR of higher secondary which has improved to 26.1 in 2019-20 from 39.2 in 2012-13.

2.4.7. The detailed tables at India and State/UT level are presented in the next part of this report. For information at a further level of details, the users are requested to visit the web portal **https://udiseplus. gov.in/#/Publication** to access the UDISE+ Reports for years 2012-13 to 2019-20.

Detailed Tables – India and State/UT

Table 1.1: Number of schools by level of school education, 2019-20

India/ State /UT	Total	Primary	Upper Primary	Secondary	Higher Secondary
(1)	(2)	(3)	(4)	(5)	(6)
India	1507708	778842	443643	151489	133734

Concepts and Definitions used in UDISE+

Sl No.	Concept (Abbreviation used)	Definition (with codes as per UDISE+ DCF, wherever applicable)
1.	Types of schools	The following codes of school management have been considered:
	Government schools	Department of Education – 1, Tribal Welfare Department – 2, Local Body – 3, Other Govt. managed schools – 6, Social Welfare Department – 90, Ministry of labour – 91, Kendriya Vidyalaya/ central school – 92 Jawahar Navodaya Vidyalaya – 93 Sainik School – 94, Railway School – 95, Central Tibetan School - 96
	Government aided schools	Government Aided - 4
	Private unaided schools	Private Unaided recognized - 5
	Other schools	Unrecognized – 8 Madrasa (recognized by madrasa/ wakf board) – 97, Madrasa (unrecognized) - 98
2.	Gross Enrolment Ratio (GER)	Total enrolment in a particular level of school education, regardless of age, expressed as a percentage of the Population of the official age-group which corresponds to the given level of school education in a given school year. Example: GER primary = Enrolment in class 1 to 5 ÷ projected population in age group 6-10 years
3.	Net Enrolment Rate (NER)	Total number of pupils enrolled in a particular level of school education who are of the corresponding official age group expressed as a percentage of the population of the official age-group which corresponds to the given level of school education in a given school year. Example: NER primary = Children of age 6-10 years enrolled in class 1 to 5 ÷ projected population in age group 6-10 years
4.	Adjusted Net Enrolment Rate (ANER)	Total number of pupils enrolled either in the corresponding level or a higher level of the school education who are of the corresponding official age group expressed as a percentage of the population of the official age-group which corresponds to the given level of school education in a given school year. Example: ANER primary = Children of age 6-10 years enrolled in primary or higher ÷ projected population in age group 6-10 years ANER upper primary = Children of age 11-13 years enrolled in upper primary or higher ÷ projected population in age group 11-13 years For both NER and ANER, the following identity is maintained: NER <= ANER <= 100.

5.	Age Specific Enrolment Rate (ASER)	Total number of pupils enrolled in any level of school education who are of the corresponding official age group expressed as a percentage of the population of the official age-group which corresponds to the given level of school education in a given school year. Example: ASER 6-10 years = Children of age 6-10 years enrolled in primar or higher ÷ projected population in age group 6-10 years ASER 11-13 years = Children of age 11-13 years enrolled in primary/ upper primary/ secondary/ higher secondary ÷ projected population in age group 11-13 years … ASER 16-17 years = Children of age 16-17 years enrolled in primary/ upper primary/ secondary/ higher secondary ÷ projected population in age group 16-17 years
6.	Percentage of OBC Enrolments to Total Enrolments	Total OBC enrolments expressed as a percentage of the total enrolments
7.	Percentage of all minority Enrolments to Total Enrolments	Total of all notified minority communities enrolments expressed as a percentage of the total enrolment
8.	Percentage of Muslim minority Enrolments to Total Enrolments	Total of Muslim minority community enrolment expressed as a percentage of the total enrolment
9.	Promotion Rate	Proportion of pupil from a cohort enrolled in a given level at a given school year who are enrolled in the next grade in the following school year.
10.	Repetition Rate	Proportion of pupil from a cohort enrolled in a given level at a given school year who are enrolled in the same grade in the following school year
11.	Dropout Rate	Proportion of pupil from a cohort enrolled in a given level at a given school year who are no longer enrolled at any grade in the following school year. The following identity is maintained while preparing the estimates of promotion rate, repetition rate and dropout rate: Each of Promotion Rate, repetition Rate and Dropout Rate is non negative and Promotion Rate + Repetition Rate + Dropout Rate = 100
12.	Retention Rate	Percentage of a cohort of pupils (or schools) enrolled in a first grade of a given level of education in a given school year who are expected to reach the last grade of the level.
13.	Gender Parity Index (GPI) of GER	Ratio of GER of girls to GER of boys. It measures the progress towards gender parity in education participation and/or learning opportunities available for girls in relation to those available to boys. It also represents the level of girls' empowerment in the society.
14.	Pupil Teacher Ratio (PTR)	Pupil-Teacher Ratio (PTR) is the average number of pupils (at a specific level of education) per teacher (teaching at that level of education) in a given school- year.
15.	CBSE	Central Board of Secondary Education
16.	ICSE	Indian Certificate of Secondary Education

Data capture process of UDISE+ and online availability of UDISE+ data

Data capture process of UDISE+ and online availability of UDISE+ data

1.   Overview

1.1   The UDISE+ Ecosystem Application is the main backbone of nationwide school related MIS. It consists of various ICT/Digital Application modules comprising of School Directory Management, Data Collection module and Data Dissemination module. The Data Dissemination module consists of two parts, namely, Dissemination in the form of charts, reports and statistical tables at All-India, State/UT, District and Block level summary results as well as module on sharing of anonymised raw data. The overall ecosystem aims to provide a robust digital infrastructure to facilitate MIS information and data from all pillars of school education namely Schools, Students and Teachers. The application deals with more than 5000 data capture fields from UDISE+ DCF. The National Informatics Centre (NIC) of the Ministry of Electronics and Information Technology (MeITY) has a dedicated team of officers to manage the entire facility on behalf of the Ministry of Education. This team is called the UDISE+ support team.

2.   UDISE+ Ecosystem Application Modules

2.1   The different modules used for the

UDISE+ data capture system are as under:

i.   School Directory Management (SDM): It is the core of UDISE+ Ecosystem and acts as a central repository of school directory with basic and fundamental details of a school.

ii.   School Data Capture: It's the module responsible of school data collection as per the UDISE+ DCF.

iii.   Know Your School: Know Your School helps to easily search any school online and made school key information available on the website along with School Report Card for various years.

iv.   School Education Dashboard: School Education dashboard aids to visually

present the Key Performance Indicators (KPI) and metrics of School Education. It presents and visualizes complex UDISE+ data in a simple and comprehensible format.

v. Data Sharing Portal : Data Sharing Portal is framed to facilitate access to anonymised school-wise UDISE+ data as per the data sharing policy of UDISE+. This is expected to meet user requirements particularly with respect to undertaking analytics projects, research activities, academic studies, etc.

vi. School GIS: This module helps to locate any school in map with various other features which help to make administrative decisions for planning purpose.

As of June 2021, there are 26,245 administrative users and 6.6 lakh school users for the UDISE+ data entry system. During the data entry phase, average daily hits including all UDISE+ Ecosystem Applications are approximately 95,000.
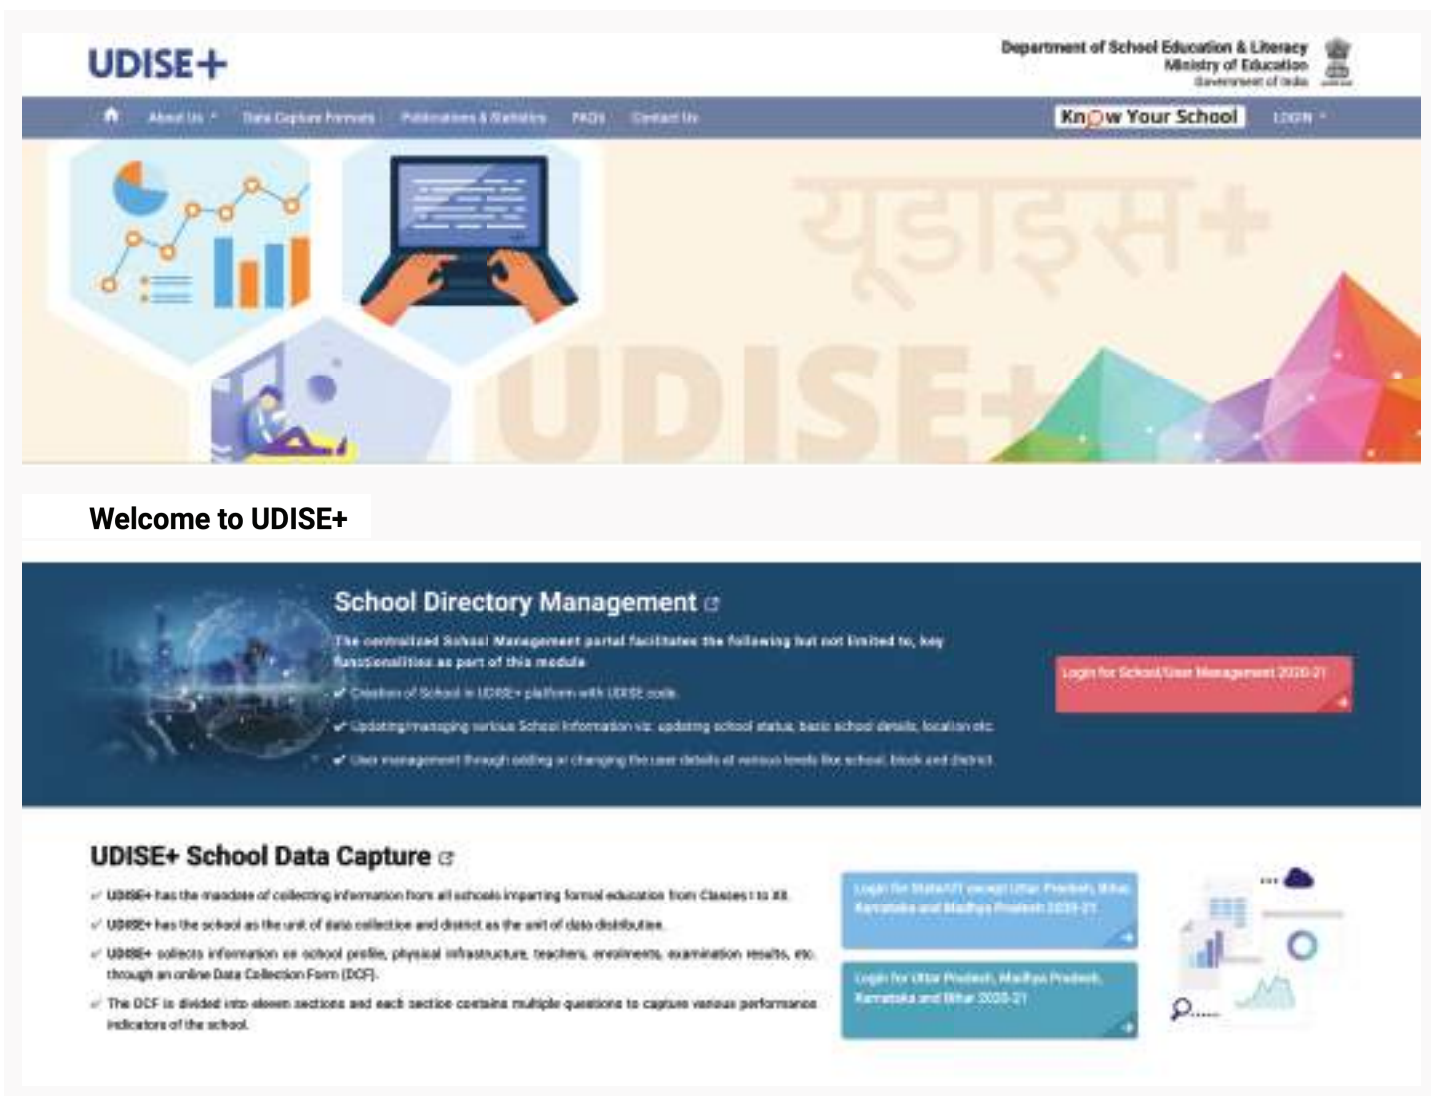

3. Features and Advantages of UDISE+ system over earlier UDISE software:

UDISE+ is a much improved version compared to the offline U-DISE application. Some of the major features of UDISE+ Application are:

i. A centralized module has been developed for generating UDISE codes for all States/UTs, so that there is no duplication of codes across States, with document level verification/monitoring from District, State and National Level.

ii. Real time checking and rectification/revision of school details, for example, change in school category, school management, name, classes taught, location, etc. along with uploading of relevant documents, so that the concerned State level officers can verify and confirm such changes in real time. It also helps in mapping of location parameters of a School according to Local Government Directory (LGD) of the Ministry of Panchayati Raj.

iii. Data Capture of UDISE+ DCF through various User Friendly Application User Interfaces from School/CRC/Block level with School Data Certification. Some portion of data is captured in real time.

iv. Monitoring of DCF data entry in terms of entry status, data quality and other issues with the help of various reports and data dump.

v. Data certification from all level of users, starting from the principal/teacher-in-charge of the school, followed by concerned State/UT officers at the cluster, block, district and State/UT level.

vi. Various modules for data consistency checks like data verification modules through user interfaces, school wise reports in excel, consolidated reports in excel & PDF and SQL data dump at state and district level.

vii. Know Your School module with various features to locate a school by school name or by its code and get its basic and other details in the form of summary data, called the School Report Card.

viii. Data Visualization Dashboard to visually present various key performance indicators (KPI) and metrics of School Education from UDISE+ data of several years.

ix. Data Sharing Portal to access for anonymised school level UDISE+ data in user friendly format along with data structure to meet a variety of requirements, particularly for research and other analytical purpose.

4. Some key advantages of new UDISE+ software over old UDISE Software

i. Due to direct online data entry from schools, the UDISE+ data can be revised only at the school level. No centralized data correction is permitted.

ii. The cloud based infrastructure with proper data recovery mechanism of NIC ensures that there is no data loss even if there is some interference during data entry. The earlier system witnessed data loss due to system crash, as it was standalone desktop application and the user had to redo data entry whenever there was no proper backup facility at local level.

iii. Being an online application, UDISE+ has a number of entry level checks built-in the data entry module at all levels in real time. That helps to improve data quality and speed up data entry and its verification.

iv. The online data entry module has a huge positive environmental impact in the form of significant reduction in cost of printing blank DCFs as well as reduction in data entry errors from manual forms to computer data entry. A conservative estimate of this reduction was done and it was found to be in the tune of 70% (approx 30 million pages) due to online data entry from schools.

5. Stakeholders, Users and Roles:

UDISE+ application consists of various users with different roles at various stakeholder Level. A brief overview is given below:

i. National Level : National Admin Users, National View Users.

ii. State Level : State Project Director, State MIS, State Level View Users.

iii. District level : District Education Officer/ District Project Coordinator or equivalent, District MIS, District Level View Users.

iv. Block Level : Block Education Officer or Equivalent, Block MIS, Block Data Entry user.

v. Cluster Level : Cluster Resource Centre in charge.

vi. School Level : School User (HM or Principal or UDISE+ in-charge).
